

PayForMe — Business Documents by Integration

Version: 1.1

Purpose: One checklist of company documents and which integration each is required for

Use this when: Applying to Arkesel, Hubtel SMS, MTN MoMo, Cloudflare R2, or partner banks

Cloud storage: PayForMe uses **Cloudflare R2** (bucket: `payforme`). AWS S3 is not required.

1. Company details to prepare once

Fill these in once and reuse across all applications.

Field	Example / notes
Legal entity name	PayForMe Ghana Ltd
Trading / brand name	PayForMe
Entity type	Private Limited Company
Country of incorporation	Ghana
Date of incorporation	From Certificate of Incorporation
Certificate of Incorporation number	RGD / Registrar number
Business Registration number	Ghana RGD unique ID
TIN (Tax Identification Number)	GRA-issued
VAT registration number	If VAT-registered
Registered office address	Full postal address
Operational address	If different from registered
Official company email	Prefer @yourdomain.com
Company phone & website	Live contact details
Authorized signatory	Name, title, ID, email, phone
Corporate bank account	Bank name, account name, account number

2. Eight core documents (all integrations)

Prepare **these eight once**. Every provider below (SMS, MoMo, R2) will ask for them — submit the same copies each time.

#	Document	What it proves
1	Certificate of Incorporation	Legal existence (RGD)

2	Business Registration certificate / extract	Current registration with RGD
3	TIN certificate	Tax identity (GRA)
4	Proof of business address	Utility bill, lease, or bank statement ($\leq$ 3 months)
5	Director / authorized signatory ID	Ghana Card or passport of person signing applications
6	Corporate bank account confirmation letter	Settlement, billing, or MoMo payouts
7	Privacy policy (published)	Live URL — how you handle user data
8	Live website / app URL	Production domain (HTTPS) proving the business is operational

Tip: Scan all eight to PDF, name them clearly (e.g. 01-incorporation.pdf), and store in R2 at private/compliance/kyb/ (see Section 7).

3. Extra documents by integration only

After the **eight core documents**, each integration may ask for **additional** items. You do **not** need to re-list the core eight in each table below.

Legend

Symbol	Meaning
Required	Must submit or provider will reject
Often	Commonly requested; have ready
—	Not typically needed

SMS — Arkesel

Core 8: ✓ all required

Extra document	Required
Sample SMS templates (OTP, withdrawal alerts, notifications)	Required
Approved Sender ID application ($\leq$ 11 characters)	Required
Business operating license	Often
Register of directors	Often
Board resolution	Often

Also provide: use case (verification OTP, withdrawal OTP, notifications), estimated monthly SMS volume.

SMS — Hubtel

Core 8: ✓ all required

Extra document	Required
Sample SMS templates	Required
Hubtel merchant / SMS onboarding form	Required
Business operating license	Often
Register of directors	Often
Board resolution	Often

Env when approved: SMS_PROVIDER=hubtel , HUBTEL_SMS_CLIENT_ID , HUBTEL_SMS_CLIENT_SECRET , HUBTEL_SMS_SENDER_ID

MTN MoMo (Collections)

Core 8: ✓ all required — MoMo also needs the **heaviest extra pack**

Extra document	Required
Memorandum & Articles / Constitution	Required
Register of directors	Required
UBO (beneficial ownership) declaration	Required
UBO Ghana Cards / passports (≥ 25% owners)	Required
Board resolution (authorize signatory + MoMo agreement)	Required
Business operating license	Required
AML / CFT policy	Required
KYC / customer due diligence policy	Required
Terms of service (published)	Required
HTTPS callback URL (/api/webhooks/payments/momo)	Required
Technical contact (name, email, phone)	Required
MTN merchant / Collections agreement	Required
VAT registration certificate	Often
Audited financial statements	Often
Information security policy	Often

Also provide: business category, estimated transaction volume, settlement account.

Env when approved: PAYMENT_PROVIDER=momo , MOMO_SUBSCRIPTION_KEY , MOMO_API_USER , MOMO_API_KEY , MOMO_CALLBACK_URL

Cloud storage — Cloudflare R2 (*PayForMe default*)

Core 8: ✓ all required (use bank letter or corporate card for R2 billing)

Extra document	Required
Cloudflare account verification	Required
Information security policy	Often
Data Protection Commission registration (Ghana)	Often (storing KYC / personal data)

Use case to describe: private KYC & financing documents, property images, signed URL access, audit logging.

Bucket: `payforme` .

Env when approved:

```
STORAGE_DRIVER=s3
S3_ENDPOINT=https://<account-id>.r2.cloudflarestorage.com
S3_BUCKET=payforme
S3_ACCESS_KEY_ID=
S3_SECRET_ACCESS_KEY=
S3_REGION=auto
```

Setup guide: [cloud-storage-setup.md](#)

4. Quick comparison matrix

	Core 8 (all)	Arkesel SMS	Hubtel SMS	MTN MoMo	Cloudflare R2
Certificate of Incorporation	✓	—	—	—	—
Business Registration	✓	—	—	—	—
TIN certificate	✓	—	—	—	—
Proof of address	✓	—	—	—	—
Signatory ID	✓	—	—	—	—
Bank account letter	✓	—	—	—	—
Privacy policy	✓	—	—	—	—
Live website / domain	✓	—	—	—	—
Sample SMS templates	—	✓	✓	—	—
Sender ID (Arkesel)	—	✓	—	—	—

Hubtel onboarding form	—	—	✓	—	—
UBO + board resolution	—	—	—	✓	—
AML / KYC / ToS policies	—	—	—	✓	—
MoMo callback URL + tech contact	—	—	—	✓	—
Cloudflare account verification	—	—	—	—	✓

✓ in “Core 8” = prepare once for every integration. — in provider columns = covered by core 8; no duplicate submission list needed.

5. Extended document reference (if a provider asks for more)

#	Document	Typical use
D2	Memorandum & Articles	MoMo
D5	VAT certificate	MoMo (if VAT-registered)
D6	Business operating license	SMS, MoMo
D8	Register of directors	SMS, MoMo
D9	UBO declaration	MoMo
D11	Board resolution	SMS (often), MoMo (required)
D13	Audited financials	MoMo (often)
D14	AML / CFT policy	MoMo
D15	KYC policy	MoMo
D17	Terms of service	MoMo
D18	Information security policy	MoMo, R2
D19	Complaints procedure	Banks, some payment partners
D20	DPA registration (Ghana)	R2 when storing personal/KYC data
D21	Sample SMS templates	Arkesel, Hubtel
D22	HTTPS callback URLs	MoMo
D23	Technical contact	MoMo, bank API

6. Recommended submission order

1. **Prepare the core 8** — scan once, reuse everywhere
2. **Cloudflare R2** — enable secure KYC storage in production (`payforme` bucket)

3. **SMS** (Arkesel or Hubtel) — add SMS templates + Sender ID or Hubtel form
 4. **MTN MoMo** — submit when AML/KYC policies and live site are ready
 5. **Partner Bank API** — see [bank-partner-api.md](#)
-

7. Where documents are stored internally

- **R2 path:** private/compliance/kyb/ on bucket payforme
 - **Never** commit certificates, TIN scans, or API keys to git
 - Access: admin / compliance roles only; downloads audit-logged
-

8. Technical setup guides (after KYB approved)

Integration	Setup guide
Arkesel SMS	sms-integration.md
Hubtel SMS	sms-integration.md (Hubtel section)
MTN MoMo	momo-integration.md
Cloudflare R2	cloud-storage-setup.md
Partner banks	bank-partner-api.md

9. PDF export

```
npm run docs:kyb-matrix-pdf
```

Output: docs/integration-business-documents.pdf
